

**TESTIMONY OF MISSOURI RIGHT TO LIFE
IN SUPPORT OF HB 1725
March 24, 2010**

In the wake of the massive health care reform legislation passed in Washington D.C. on Sunday, March 21, 2010 that will use our federal tax dollars to pay for elective abortions Missouri Right to Life stands in support of HB 1725. HB 1725 will prevent any health insurance exchange established within Missouri and administered by the federal government or its agencies to offer contracts, plans, or policies in the state of Missouri that provide coverage for elective abortions.

Because of the serious threat to human lives with the passage of the so called “health reform package” in Washington, Missouri Right to Life urges quick passage of HB 1725.
