

**TESTIMONY OF MISSOURI RIGHT TO LIFE
IN SUPPORT OF HCS HB 1383
Before the Senate General Laws Committee
May 9, 2012**

It is public knowledge that Planned Parenthood receives money from our federal tax dollars. And pro-life people across this nation oppose their monies going to abortion providers.

HCS HB 1383 is simply an accounting bill. It would require reporting of all those who receive federal tax dollars. This bill would look to see if our federal tax dollars that go to abortion providers in the State of Missouri could be redirected to those agencies operating under the Alternatives to Abortion program and providing services to women in crisis pregnancies. If women want abortions they should not be asking us to pay for it.

Missouri Right to Life supports HCS HB 1383 in that it seeks ways to prevent our federal tax dollars from going to abortion providers like Planned Parenthood.
