

Call to Action!

Calls and emails are needed in these last 2 weeks of this legislative session. Session ends on Friday, May 13 at 6:00 p.m.

Anything that impedes the financial incentive for the abortion industry decreases the number of abortions. Please... call your State Senator and ask him/her to pass HCS HBs 2069 & 2371 – one bill with two numbers.

WHAT WILL HCS HB'S 2069 & 2371 ACCOMPLISH....

- Requires the accounting of and reporting of all body parts of the aborted baby.
- Prohibits donation of baby organs or tissue after an abortion.
- Imposes penalties for sale of baby body parts of the aborted baby.
- Requires all remains of an aborted baby to be submitted to a board certified pathologist.
- Requires a detailed tissue report on every abortion.
- Requires disclosure of the entity conducting the exam of the remains of an aborted baby.
- Requires tracking of the baby's remains from abortion facility to pathology lab to disposition location.
- Mandates that the Department of Health receive report copies which are available to the public.
- Noncompliance requires an unscheduled inspection of the abortion facility.
- Un-remedied deficiencies result in a suspended license (1 year minimum).
- The Health Department will make annual report of deficiencies to the General Assembly.
- Contains whistleblower protections for people who work in the abortion clinic, the pathology lab, or the research facility.

We Thank Our Legislators for Some Great things! And.....

...we need HCS HB's 2069 & 2371 to give the full force of law to ensure that baby body parts are not being sold in Missouri or around the United States.

Your Call to Action? Call Your State Senator!

To determine your State Senator and the email or telephone to reach him/her, access the webpage <http://www.senate.mo.gov/LegisLookup/> to enter your address, then click on the senator's name.
