

Testimony of Missouri Right to Life

In Support of SB 126

**Before the Senate
Judiciary and Civil and Criminal Jurisprudence Committee**

February 18

TESTIMONY OF MISSOURI RIGHT TO LIFE IN SUPPORT OF SB 126

Senate Bill 126 offers protection for pharmacies against lawsuits brought by abortionists and their zealous supporters for refusing to dispense drugs that cause abortions. The problem is real, as such lawsuits have been filed elsewhere. SB 126 only protects pharmacies from being sued or otherwise penalized for not stocking any prescription or non-prescription drug or device.

Missouri has demonstrated strong support through the years for policies that protect human life. Pharmacies and their owners ought to be protected by the state's commitment in this area. Missouri Right to Life therefore strongly supports SB 126 and urges its approval by this committee.
