**Highlight of the Week:**

On Thursday, April 18, Senator Bob Onder, Chairman of the Senate Health and Pensions Committee turned in to the full Senate SCS HB 126, the pro-life omnibus House Bill which includes a new model of the heartbeat bill, the pain capable unborn child protection act, and a “trigger bill” to ban abortion in Missouri when Roe vs. Wade is overturned. SCS HB 126 also includes a ban on abortion when based solely on race, gender or Down Syndrome, two custodial parent notification prior to a minor having an abortion, language requiring that informed consent information be given to women when they are referred to an out-of-state abortion clinic and an increase in liability insurance for those performing an abortion. This is a great pro-life bill and we look forward to the full Senate moving this bill forward for passage and be sent to Governor Parson for his signature.

Also turned in to the full Senate by Senator Onder was HB 138, Simon’s Law which ensures that a DNR order cannot be placed into a minor child’s medical file without the parents knowledge.

These bills will now be considered for passage by the full Senate.

Please pray for our Senators as they work to pass these life-saving pieces of legislation

**Bills to Watch:**

This session there have been 518 bills and 63 various resolutions filed in the Missouri Senate. There have been 1255 bills and 159 various resolutions filed in the Missouri House.
