

Legislative Update: May 9, 2014

Spotlight for the Week:

SCS HB 1132 was Truly Agreed to and Finally Passed out of the House by a vote of 121 yes and 25 no, May 7 and sent to the Governor. SCS HB 1132 is sponsored by Representative Kevin Engler and Representative Jeanie Riddle. Senator Gary Romine is the senate sponsor of the bill. This omnibus benevolent tax credit bill includes increasing the amount of tax credits for contributions to pregnancy resource centers and maternity homes available in each fiscal year from \$2 million to \$2.5 million dollars. SCS HB 1132 garnered strong bi-partisan support because of the multiple benevolent issues on the bill.

We thank all legislators who voted for these important tax credits for Pregnancy Resource Centers and Maternity Homes! These tax credits will help your local pregnancy resource centers and maternity homes in their fund-raising efforts in order to have sufficient funds to help women in crisis pregnancies.

Abortion Clinic Inspection Legislation:

HCS HB 1478 Now on the House Bill Calendar for Perfection, May 12

Testimony in Support of HB 1478: <http://missourilife.org/legislation/2014/2014-03-06.html>

SCS SB 770 Laid Over on the Calendar with No Senate Floor Debate, April 23. On the Senate Informal Calendar for Perfection, May 12

Testimony in Support of SB 770: <http://missourilife.org/legislation/2014/sb770.html>

HCS HB 1478 & SB 770 will place in statute stricter inspection requirements and more accountability for abortion clinics. It will establish statutory requirements rather than relying solely on regulations for oversight of abortion clinics and will be less subject to the agenda of a particular agency or political party.

Atrocities at abortion clinics in Pennsylvania and Texas and many violations of health requirements at the St. Louis Planned Parenthood facility where there have been multiple 911 calls over the last 4 years illustrate the need for this legislation.

We thank Senator Wayne Wallingford, Sponsor of SCS SB 770 and Representative Kathryn Swan, Sponsor of HCS HB 1478 and all the co-sponsors for working to move this important life-saving legislation forward and help get it to the Governor's desk. HCS HB 1478 has over 100 co-sponsors.

January 22, MRL told by vice-chairman (acting chairman at the time), during committee testimony, that testimony was only being taken for HB 1310 and not on HB 1236 – even though both sponsors for HB 1236 and HB 1310 both presented their bills together and everyone giving testimony in support of these bills, including MOBIO, the lead group seeking public monies for human cloning and embryonic stem cell research, gave testimony for both bills. MRL turned in testimony in opposition to both HB 1310 and HB 1236. HB 1236 never had a separate presentation in the hearing.
