

**TESTIMONY OF MISSOURI RIGHT TO LIFE  
IN SUPPORT OF SB 20  
Before the Senate Jobs, Economic Development and Local Government Committee  
January 23, 2013**

Missouri Right to Life strongly supports the tax credits for Pregnancy Resource Centers. The tax credits allow an opportunity for the PRC's to offer alternatives to having an abortion to women who find themselves in a crisis situation while pregnant.

Missouri Right to Life encourages this committee to extend the opportunity for Pregnancy Resource Centers to receive these tax credits.

Missouri Right to Life will monitor any changes to the language of SB 20 and update our position as SB 20 progresses and changes through the legislative process.
