TESTIMONY OF MISSOURI RIGHT TO LIFE
IN SUPPORT OF SB 632
Before the Senate Economic Development Committee
January 30, 2018

Missouri Right to Life strongly supports extending the tax credits for contributors to Maternity Homes and Pregnancy Resource Centers. The tax credits allow these facilities to raise money to help women in crisis pregnancies. Maternity Homes and Pregnancy Resource Centers offer housing and alternatives to having an abortion to women who find themselves in a crisis situation while pregnant. These services are provided to women who are seeking help to carry their pregnancy to term.

Missouri Right to Life encourages this committee to extend and increase the opportunity for Maternity Homes and Pregnancy Resource Centers to receive these tax credits in order to help women in crisis pregnancies.
