

**TESTIMONY OF MISSOURI RIGHT TO LIFE
IN SUPPORT OF HB 1435
Before the House Children and Families Committee
February 29, 2012**

Missouri Right to Life strongly supports the tax credits for Pregnancy Resource Centers. The tax credits allow an opportunity for the PRC's to offer alternatives to having an abortion to women who find themselves in a crisis situation while pregnant.

Missouri Right to Life encourages this committee to extend the opportunity for Pregnancy Resource Centers to receive these tax credits.
