

**STATEMENT OF MISSOURI RIGHT TO LIFE
REGARDING HB 2014
February 8, 2012**

We know that the Budget Committee is in the early stages of consideration of budget items and we appreciate the monumental task you have at hand.

We hope that you will consider our concerns in relationship to the MOSIRA fund and what will be done with public tax dollars.

We have spoken with Chairman Ryan Silvey and Vice-Chairman Rick Stream and we appreciate their time and open door to discuss this issue.

As we continue discussion on how to keep public dollars from being used for human cloning and embryonic stem cell research we hope that if MOSIRA is funded, you will see the need to have protective language on it in the appropriation bill.
