NOTE ON HCS HJR 43:

As of March 27, 2023, HCS HJR 43 will not protect our Missouri Constitution and leaves Missouri wide-open for pro-abortion forces to deceive the public and put a right to abortion in our Constitution.

The pro-abortion forces have filed their initiative petitions to make abortion legal all nine months of pregnancy; and their language includes letting a baby born alive after surviving an abortion to be left to die, it is even more important now to amend HCS HJR 43.

HCS HJR 43 needs to be amended in the Senate with stronger language supported by Missouri Right to Life in order to protect our pro-life laws and our Missouri Constitution from pro-abortion attacks.

Information on the Initiative Petitions and why HCS HJR 43 MUST BE AMENDED TO PROTECT WOMEN AND UNBORN CHILDREN

The pro-abortion initiative petitions are dangerous to our Missouri way of life because:

1. The structure and support system for Missouri women would be seriously damaged if this initiative were passed. It would (a) allow for abortions to be performed up until the moment of birth, (b) allow anyone to perform an abortion with no licensing requirements, (c) deny any woman harmed by an abortionist her right to sue for malpractice to recover for her injuries, and (d) allow for the funding of abortions with public tax dollars.
2. Pregnancy Resource Centers could be forced to refer for abortion. Alternatives to abortion funding and tax credits for Pregnancy Resource Centers could be taken away.
3. These initiatives could infringe on multiple constitutional rights such as:
 - (a) Clergy being prosecuted for not offering counseling for abortion;
 - (b) Praying on the sidewalk and counseling women on alternatives to abortion could be illegal.
4. Taking the life of a baby born alive after an abortion could be considered constitutional under this initiative. Physicians that choose not to give care to a baby born alive after an abortion, could not be prosecuted because it would be considered "reproductive choice" of the woman.
