

**TESTIMONY IN SUPPORT OF SB 594**  
**BEFORE THE SENATE**  
**HEALTH AND WELFARE COMMITTEE ON**  
**MAY 3, 2023**

Advocates for unborn human lives are united in the commitment to prevent public funding from going to abortion providers in any form. Pro-life Missourians have worked tirelessly for 50 years to end abortion and we find it abhorrent to think we are still being forced to continue funding and subsidizing the abortion industry with our public tax dollars.

Missouri Right to Life has been consistent over the years in supporting life-saving legislation to save innocent preborn babies from being killed in such horrendous ways as these abortion procedures.

Any business in the State of Missouri that enters in to a contract with a business that is giving reimbursement to their employees to travel to get an abortion should not receive public tax dollars.

For these reasons, Missouri Right to Life supports SB 594.
